MONDAY

Indo-Islamic Architecture

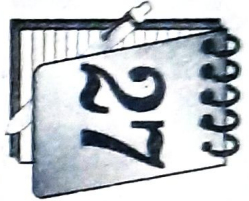

⇒ This is a specific Indo-Islamic architecture made in Sultanate period.

⇒ Basically Islamic art is also the mixture of Arabians, Persians, Turks, North Africa, south west-Europe etc. architecture.

⇒ Muslim art uses temples and after some changes they converted it into Mosques. In Hinduism animal and human figures were available but in Islamic art it is prohibited. They used only geometrical designs.

⇒ They also create a lot of Kufic in carving.

So by the combination of Hindu and Muslim art style a new
