

February

# Archaeology

## STEPS:

- Exploration
- Excavations & Dating
- Recording ✓
- Conservation
- Display
- Making of History

12

Wed

## Recording: ✓

→ It means the to maintain all the data on the site during excavation which includes the 3 dimension measurement, Photography and Archaeological Drawing etc.

13

Thu

→ Actually Excavation means the destruction of sites because all the remains are not preserved as they before so before removing the antiquity from the place it is necessary to record the features.

→ Example of Recording
