Academic Audit Report Session
2008-2009

1. Name of Department : School of Studies in Sociology

2. No. of full time permanent faculty : Two
3. No. of part time /temporary/ contractual faculty : Two
 4. No. of PG / UG courses : one UG and 5 PG courses

5. No. of Research Publications : 05

6. Strength Of your SS/Institution/ Dept. :

> (1) dedicated faculty
> (2) teachers with vast experience and full of knowledge
> (3) upto date syllabus which fulfils the demands and requirements of NGO's and other organisations where our students are expected to work.
> (4) Facilitates students in campus placement and off-campus placements.
> (5) personalised career guidance to individual students.

7. Weakness Strength Of your SS/Institution/ Dept. :

> (1) lack of adequate ratio of teachers.
> (2) low usage of technology in teaching process.
> (3) inadequate autonomy.
> (4) no subscription of Journals in the department
> (5) no departmental library
> (6) lack of Internet facility for teachers as well as for students.

8. Recommended actions for the Improvement :

> (1).Recruit more permanent faculty members.
> (2).Increase use of technology in teaching aid to instill interest among students. The department should be equipped with modern teaching aids like LED projectors, interactive boards, etc.
> (3).The departments should be provided with sufficient freedom in terms of spending. MSW being a practical subject requires continuous and frequent interaction with society but because of non-availability of funds the students are forced to opt out of such interaction and are also restricted to such interaction in local or nearby area.
> (4). The department should be allowed to establish its own departmental library. The freedom to subscribe to journal and also to purchase books should lie on individual faculty members rather than 'degenerative' centralized purchasing mechanism.
> (5). The campus should be equipped with high speed wifi connectivity and access to inflibnet (UGC initiated library resources)
> (6). Digitalized attendance system.
> (7). The most important recommendation for the proper functioning of the university teaching system is to make university administration responsive towards teachers. Presently teachers

have to carry their files and move from table to table to get the sanction. This kills teachers time and resources. For this, the university going in line with 'Digital India' should adopt digital platform for moving note sheets and files.
